

C O N T E N T S

From Editors 5

Mykola BOGOLYUBOV (jr.), Anatoliy PRYKARPATSKY,
Mykola PRYTULA
Ergodic dynamical systems: the order and chaos 9

Nataliya BUHRII
Investigation of an asymptotic of the solution of Markov
renewal equation 17

Ol'ha VOROBYOVA, Mykola PRYTULA
The complete integrability analysis of a four-dimensional re-
duction of the inverse Korteweg-de Vries dynamical system . . 26

Andriy VUS
Geodesic flows on the sphere S^2 with additional first integral,
cubic in the momenta 48

Vasyl' HERASYMCHUK, Volodymyr MASLYUCHENKO,
Oleksandr MASLYUCHENKO
A characterization of discontinuity point sets of CD -functions 57

Yaroslav YELEIKO, Yuriy ZHERNOVYI
Probability of a dangerous state of composite rods and joins
with random forces and initial deflections 72

Mykola ZABOLOTSKYI
Complex slowly varying functions along a curve and at the
vertex of an angle 83

Mykhaylo ZARICHNYI
Extension of metrics in the asymptotic topology 92

Olena KARLOVA
The Baire classification of mappings which are continuous
with respect to the first variable and of the functional class α
with respect to the second one 97

Yuriy LINCHUK
Some properties of operators which connect with generalized
shift, generated by Pomme operatore 114

Halyna LOPUSHANSKA, Oksana CHMYR	
The existence and regularity of the solutions generalized normal boundary value problems for the quasilinear parabolic systems	123
Oksana MEDVID	
The problem with integral conditions for factorized partial differential equations	135
Mykhaylo POPOV	
The Rosenthal subsequence splitting lemma in L_1	147
Yarema PRYKARPATSKY, Anatoliy SAMOYLENKO, Anatoliy PRYKARPATSKY	
The spectral and differential geometric aspects of a generalized de Rham–Hodge theory: associated Delsarte transmutation operators in multidimension and their applications	151
Victor REVENKO	
Construction of the general solution to the Lamé 3D equations of elasticity theory	185
Mykhaylo SYMOTYUK	
Diophantine approximations of the determinant of the two- point problem for partial differential equations	199
Oleh SKASKIV	
On the logarithmic derivative and central exponent Dirichlet series	213
IHOR SKRYPNYK	231
OLEH ROMANIV	233
Contents in Ukrainian	235
Contents in English	237
